Gujarat Medical Value Travel Promotion Society (GMVTPS)

Gujarat: The Future of Global Healthcare.

The Gujarat Medical Value Travel Promotion Society (GMVTPS) stands at the forefront of India's rapidly evolving global healthcare landscape, driving a transformative vision to position Gujarat as a premier international destination for medical value travel. Conceived as a strategic public–private partnership, GMVTPS brings together the strength of progressive government policy, world-class healthcare infrastructure, and a collaborative network of leading accredited hospitals and healthcare providers. It functions as a unified, single-window platform that represents and streamlines Gujarat's expanding international healthcare ecosystem. At its core, GMVTPS is designed to deliver a seamless, end-to-end patient journey that goes far beyond clinical treatment. It integrates advanced medical expertise with holistic patient support services, including international patient facilitation, visa and travel assistance, accommodation coordination, language interpretation, and personalized care management. From the moment a patient considers traveling to Gujarat, through diagnosis, treatment, recovery, and return, every step is carefully curated to ensure comfort, clarity, and confidence. What distinguishes GMVTPS is its unwavering commitment to global standards of quality, safety, and ethics. By aligning with internationally recognized clinical protocols, accreditation systems, and transparent pricing mechanisms, the Society fosters trust and credibility among patients, governments, and healthcare partners worldwide. The emphasis on outcome-driven care, combined with cost-effectiveness, makes Gujarat a compelling choice for patients seeking high-quality treatment without the prohibitive costs often associated with healthcare in developed nations. Gujarat's healthcare ecosystem itself is a powerful enabler of this vision. The state is home to a robust network of multi-specialty and super-specialty hospitals equipped with cutting-edge technology and supported by highly skilled clinicians with global exposure. Specialties such as cardiac sciences, oncology, orthopedics, organ transplantation, gastroenterology, and advanced surgical interventions have emerged as key strengths, attracting patients from across Asia, Africa, the Middle East, and beyond. The integration of modern medicine with wellness and rehabilitative care further enhances patient recovery and overall experience.

Beyond service delivery, GMVTPS plays a proactive role in shaping Gujarat's global healthcare identity. Through participation in international healthcare forums, medical tourism summits, the Society actively promotes Gujarat as a trusted healthcare destination. It fosters partnerships with foreign governments, embassies, insurance providers, and global healthcare facilitators, creating strong referral networks and ensuring continuity of care across borders. These collaborations not only expand access but also reinforce Gujarat's reputation for reliability and excellence.

A key pillar of GMVTPS's approach is its focus on patient-centricity and cultural sensitivity. Recognizing the diverse backgrounds of international patients, the ecosystem emphasizes personalized care, multilingual support, and culturally aligned services that make patients feel at home even when they are far away. This human-centered approach, combined with clinical excellence, creates an experience that is not only medically successful but also emotionally reassuring.

In addition, GMVTPS is committed to continuous ecosystem development through policy facilitation, capacity building, and innovation. By working closely with government authorities and industry stakeholders, the Society helps streamline regulatory processes and enhance ease of access. It also encourages the adoption of digital health technologies, telemedicine, and data-driven care models to further strengthen Gujarat's competitiveness in the global healthcare arena.

As the demand for affordable, high-quality healthcare continues to rise globally, Gujarat is uniquely positioned to lead this transformation. With its blend of clinical expertise, advanced infrastructure, patient-focused services, and strategic global engagement, GMVTPS is not just promoting medical travel—it is redefining it.

Through its sustained efforts, the Gujarat Medical Value Travel Promotion Society is shaping a future where Gujarat is recognized not only as a destination for treatment, but as a trusted partner in health and healing. It offers international patients more than medical care—it offers assurance, accessibility, and a healthcare experience rooted in excellence, integrity, and compassion.

Our Vision

To reinforce Gujarat's stature as a globally recognized and trusted leader in medical and wellness excellence, defined by superior healthcare outcomes, patient-centric care, and seamlessly integrated support systems.

Our Mission

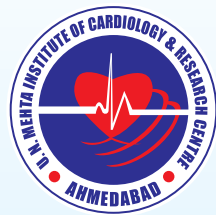

To strengthen Gujarat's role as a leading international destination for advanced, ethical, and high-quality healthcare by enabling an integrated ecosystem of clinical excellence, accredited medical institutions, patient-focused services, hospitality, digital health innovation, and holistic wellness.

YOUR HEART, OUR PRIORITY

World-Class Cardiac Care at

U. N. Mehta Institute of Cardiology & Research Centre (UNMICRC), Ahmedabad – India

U. N. Mehta Institute of Cardiology & Research Centre (UNMICRC) is one of Asia's foremost super-specialty cardiac institutes, delivering internationally benchmarked cardiovascular care with precision, compassion, and clinical excellence.

Affiliated with B. J. Medical College, Ahmedabad, UNMICRC is globally recognized for its leadership in advanced cardiology, cardiac surgery, and translational research. The institute's guiding philosophy—"Best care and total cure with utmost compassion"—is

Comprehensive Cardiology Services:

Advanced Diagnostics: 3D/4D Echocardiography, X-Ray, Doppler, hybrid cath labs, Cardiac MRI, CT Angiography, Nuclear Medicine Test Holter & stress testing, Pathology & Micro-Biology Test.

5

Interventional Cardiology (Adult & Paediatric):

Advance Cardiac Complex & Complicated Procedures

Like: PAMI Programme, Angiography, Angioplasty, Rota Ablation, IVUS, Valvoplasty, TEVAR, EVAR, PDA, VSD, ASD, RVOT, BAV, BPV, OCT, IVL, FFR, TAVI, Lesar Technology, IVC filter etc.

Cardio Vascular Thoracic Surgery (Adult & Paediatric):

Centre of Excellence in Advance Cardiac Complex & Complicated Surgery Like :

Heart & Lung Transplants, CABG, Robotic, Minimal Invasive Cardiac Surgeries, Valve Repair/Replacement, Congenital Defect Corrections, Bental , ASD, VSD, CHD, PDA, TOF, MVR, AVR, DVR etc.

Electrophysiology: EP study and RF Ablation including 3D-mapping (for AF, SVT & VT) RF Ablation, Pacemaker & Defibrillator Implantation (CRTD & AICD) , Paediatric Cardiac Interventions Including Complicated Complex Procedures etc.

Rehabilitation & Wellness: Cardiac Rehab, Physiotherapy, yoga, meditation, lifestyle & nutrition Counseling.

Scale, Experience, and Infrastructure

UNMICRC's depth of experience is unmatched, with over **3.56 lakh interventional procedures, 91,000+ cardiac surgeries**, and millions of outpatient and inpatient encounters. The institute operates **1,251 beds, including 513 dedicated cardiac ICU beds, 15 cardiac operation theaters, six advanced cath labs**, and one of the region's largest paperless ICU ecosystems, supported by **robotic-assisted surgery and eco-friendly digital systems.**

Gujarat University of Transplantation Sciences (GUTS)
IKDRC-ITS, Ahmedabad, India

The Gujarat University of Transplantation Sciences (GUTS) and its flagship institution, the Smt. G.R. Doshi & Smt. K.M. Mehta Institute of Kidney Diseases and Research Centre and Dr. H.L. Trivedi Institute of Transplantation Sciences (IKDRC-ITS), represent one of the world's most comprehensive public-sector models for organ transplantation, advanced renal care, and specialized medical education.

Established in 1981 by Padmashri Dr. H.L. Trivedi, IKDRC-ITS was founded on the principles of service, education, and research, inspired by global best practices in academic medicine. Today, it functions as a government grant-in-aid, NMC-recognized postgraduate institute, delivering high-volume tertiary care while advancing transplantation science at scale.

The institute operates over 1,000 beds, supported by 120+ dialysis machines, advanced transplant operating theatres, immunology and histocompatibility laboratories, and comprehensive critical care services. Daily outpatient attendance exceeds 400 patients, while an extended network of nearly 250 peripheral dialysis centers across Gujarat ensures broad, equitable access to renal care

IKDRC-ITS is internationally recognized for its leadership in organ transplantation, performing annually approximately 400 kidney transplants, 80 liver transplants, and select pancreas transplants. A defining distinction is its pioneering role in deceased donor transplantation. Since launching the program in 1997, the institute has completed over 1,000 deceased donor kidney

transplants and more than 640 deceased donor liver transplants. Nearly 50% of kidney transplants and 90% of liver transplants are sourced from deceased donors—among the highest proportions globally.

In 2019, the State Organ and Tissue Transplantation Organization (SOTTO), Gujarat was established at IKDRC-ITS, strengthening the state's organ donation ecosystem. Its impact has been nationally recognized through the Prime Minister's Award for Excellence in Public Administration and multiple Best SOTTO Awards from NOTTO.

Beyond clinical care, GUTS and IKDRC-ITS serve as a national hub for capacity building, offering super-specialty degrees, fellowships, and allied health programs across transplantation, nephrology, critical care, nursing, and rehabilitation sciences.

With a strong emphasis on ethical practice, sustainability, and affordability, IKDRC-ITS prioritizes transplantation as a cost-effective and environmentally responsible alternative to lifelong dialysis. Together, GUTS and IKDRC-ITS stand as a globally respected institution delivering advanced transplantation care with a public service mission, aligned with international standards and India's leadership in medical value travel.

The Gujarat Cancer & Research Institute (GCRI)

State Cancer Institute | Regional Cancer Centre | Since 1972

Established in 1972, The Gujarat Cancer & Research Institute (GCRI) is one of India's leading comprehensive cancer centers, operating under a pioneering public–private partnership between the Government of Gujarat and the Gujarat Cancer Society. Affiliated with B. J. Medical College and Gujarat University, GCRI is a nationally recognized referral institution for advanced cancer care, oncology education, and translational research.

Comprehensive Cancer Care

GCRI delivers end-to-end oncology services through a multidisciplinary model encompassing Surgical, Medical and Radiation Oncology, Pediatric Oncology, Gynec-Oncology, and allied subspecialties—supported by integrated diagnostics, rehabilitation, and palliative care.

Advanced Technology & Infrastructure

- Precision radiotherapy: CyberKnife, TrueBeam, Tomotherapy
- Robotic surgery and HIPEC for complex and advanced cancers
- Next-Generation Sequencing (NGS) and molecular diagnostics
- PET-CT, 3-Tesla MRI, 128-slice CT, Digital Mammography
- Navigation systems and exoscope-assisted neurosurgery
- 1,000-bed, GRIHA-rated energy-efficient campus with 19 modular operation theatres and a dedicated Bone Marrow Transplant Unit

Scale, Reach & Impact

- 5,000+ cancer surgeries annually
- 50,000+ chemotherapy sessions
- 5,900+ radiotherapy treatments
- 3 regional centers and 34 district chemotherapy units across Gujarat

Quality & National Recognition

- NABH (5th Edition) and NABL accredited
- PM-JAY: 2nd Best Public Institute (Large State)
- Top 10 Oncology Hospital in India – *The Week* (5 consecutive years)
- Top 50 Medical Institutions – NIRF (4 consecutive years)

Apollo Hospitals International Ltd

Ahmedabad, Gujarat | India

A flagship unit of the Apollo Hospitals Group, the Ahmedabad center is among Gujarat's most advanced super-specialty healthcare institutions. Established in 2003, it is the state's first JCI-accredited hospital, delivering globally benchmarked outcomes through clinical excellence, advanced technology, and patient-focused care.

Infrastructure & Clinical Scale

The hospital offers 300+ beds, advanced critical care units, modular operating theatres, comprehensive diagnostics, and a 24/7 blood bank. With over 18,000 outpatient consultations and 2,500 surgeries each month, care is delivered by highly experienced specialists supported by internationally aligned clinical governance systems. A dedicated International Patient Wing ensures seamless coordination and personalized care for overseas patients.

Bone Marrow Transplantation Excellence

A leading hematology and BMT destination in western India, the center has successfully completed 1,500+ bone marrow transplants, treating thalassemia, sickle cell disease, leukemia, and complex hematological disorders. A landmark achievement includes Gujarat's first successful pediatric BMT for thalassemia, reflecting expertise in high-risk and pediatric transplant care supported by stringent infection-control protocols.

Organ Transplant Leadership

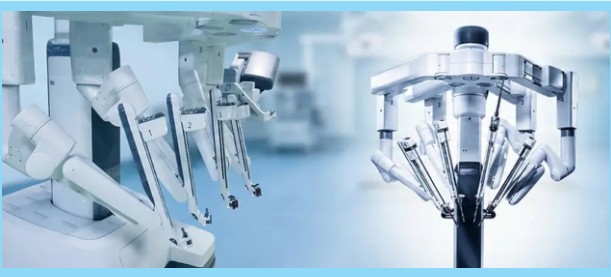

The transplant program delivers outcomes comparable to leading global centers, with 1,200+ kidney transplants and 150+ solid organ transplants, maintaining success rates exceeding 95%.

Key milestones include:

Gujarat's first pediatric liver transplant (2023)

Gujarat's first combined liver–kidney transplant (2022) for an international patient

Dedicated transplant ICUs and integrated care pathways ensure safety, precision, and continuity of care.

Robotic Surgery & Innovation

A regional leader in robot-assisted surgery, the hospital employs the Da Vinci Xi Robotic Surgical System across oncology, urology, gynecology, and gastrointestinal specialties, enabling minimally invasive procedures, faster recovery, and improved outcomes. AI-enabled diagnostics and advanced rehabilitation further strengthen clinical excellence.

International Patient Services Provided by the Consortium

To ensure a seamless and reassuring journey for our global visitors, the consortium of hospitals in Gujarat provides a unified, "single-window" support system. Every international patient receives comprehensive care that extends beyond clinical treatment, encompassing all logistics from pre-arrival to post-recovery.

Key Services Offered Across All Member Hospitals:

Pre-Arrival Facilitation:

Provision of rapid medical opinions and personalized treatment plans before the patient leaves their home country.

Travel and Logistics Support:

End-to-end assistance with medical visa processing, flight coordination, and complimentary airport pick-up and drop-off services.

Dedicated Patient Support:

Access to a specialized International Patient Desk or Centre that coordinates all aspects of the medical journey.

Language and Communication:

Multilingual interpretation services to ensure clear communication between patients, families, and medical teams.

Personalized In-Patient Care:

Access to dedicated international patient wings or lounges, personalized case management, and curated dietary services tailored to cultural preferences.

Financial and Administrative Assistance:

Streamlined admissions support and transparent billing processes.

Continuity of Care:

Ongoing support through post-treatment virtual follow-ups and coordination for long-term recovery after returning home.

Integrated Travel and Leisure Services

To enhance the healing journey, the consortium offers more than just clinical support. We recognize that many patients and their families wish to experience the rich cultural heritage of India during their stay.

Customized Tour Packages:

Through the Gujarat Medical Value Travel Promotion Society, we assist patients in designing personalized tour packages to visit local landmarks and places of interest across India during their treatment or follow-up visits.

Integrated Wellness & Tourism:

Our dedicated international desks help coordinate visits to Gujarat's historic sites, spiritual centers, and wellness retreats, ensuring these excursions are safely integrated into the patient's recovery schedule.

Seamless Coordination:

From local transport to guided tours, our hospitality teams manage all logistics so that patients can focus on their health while enjoying a culturally enriching experience.
